

1 . Product and company identification

Common name	: Anderol Pump Jack Series	
Trade name	: Anderol Pump Jack 100, Anderol Pump Jack 150.	
MSDS#	: EH1043	Supplier/Manufacturer
Material use	: Lubricant.	Anderol Inc.
In case of emergency	: CHEMTREC: 800-424-9300 (United States) CANUTEC (613) 996-6666 (Canada)	215 Merry Lane East Hanover, NJ 07936 Tel: (973) 887-7410 Fax: (973) 887-8422
MSDS authored by:	: Kemika XXI Inc. + 1-450-435-7475	
Date of issue	: 03/31/2006	

2 . Hazards identification

Physical state	: Liquid (Clear.)
Odor	: Mild.
Color	: Amber.
Hazard status	: This material is classified as not hazardous under OSHA regulations in the United States, the WHMIS in Canada, the NOM-018-STPS-2000 in Mexico and Brazil NBR 14725:2001.
Emergency overview	: No specific hazard. USE WITH CARE. Follow good industrial hygiene practice.
Routes of entry	: Dermal contact. Eye contact. Inhalation. Ingestion.
Potential acute health effects	
Eyes	: No known significant effects or critical hazards.
Skin	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Potential chronic health effects	: Carcinogenic effects: Not applicable. Mutagenic effects: Not applicable. Teratogenic effects: Not applicable.

See toxicological information (section 11)

3 . Composition/information on ingredients

No hazardous ingredient.

See Sections 8, 11 and 14 for details.

4 . First aid measures

Eye contact	: Check for and remove any contact lenses. In case of contact, immediately flush skin with plenty of water for at least 20 minutes while removing contaminated clothing and shoes. Get medical attention if irritation occurs.
Skin contact	: Wash with soap and water. Get medical attention if irritation occurs.
Inhalation	: If inhaled, remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms appear.
Ingestion	: Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.
Notes to physician	: Not available.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

5 . Fire-fighting measures

- Flammability of the product** : May be combustible at high temperature.
- Products of combustion** : The final products of combustion are carbon oxides and water. Nitrogen, sulfur and metal oxides may also be produced in some cases.
- Extinguishing media**
- Suitable** : Use an extinguishing agent suitable for the surrounding fire.
 - Not suitable** : None known.
- Special exposure hazards** : No specific hazard.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6 . Accidental release measures

- Personal precautions** : Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment.
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
- Methods for cleaning up** : If emergency personnel are unavailable, contain spilled material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.

7 . Handling and storage

- Handling** : Wash thoroughly after handling.
- Storage** : Keep container tightly closed. Keep container in a cool, well-ventilated area.

8 . Exposure controls/personal protection

Consult local authorities for acceptable exposure limits.

- Engineering measures** : No special ventilation requirements. Good general ventilation should be sufficient to control airborne levels. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

Personal protection

- Eye protection** : Safety glasses with side shields.
- Skin protection/Body** : Not applicable.
- Respiratory protection** : Not applicable.
- Hand protection.** : Natural rubber (latex).

- HMIS Code/Personal protective equipment** : B

- Personal protection in case of a large spill** : Safety glasses, goggles or face shield. Impervious gloves. Full suit. Boots. Wear NIOSH-approved self-contained breathing apparatus or equivalent and full protective gear. Wash hands, forearms and face thoroughly after handling compounds and before eating, smoking and using the lavatory and at the end of the day. Follow good industrial hygiene practice.

9 . Physical and chemical properties

Physical state	: Liquid (Clear.)
Color	: Amber.
Odor	: Mild.
Specific gravity	: 0.86 to 0.88 (Water = 1)
Flash point	: Open cup: >235°C (455°F)(Cleveland.).

10 . Stability and reactivity

Stability and reactivity	: The product is stable.
Conditions of instability	: None known.
Incompatibility with various substances	: Reactive with oxidizing materials.
Hazardous polymerization	: Will not occur.
Conditions of reactivity	: None known.

11 . Toxicological information

Acute Effects

Eyes	: No known significant effects or critical hazards.
Skin	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Potential chronic health effects	: Carcinogenic effects: Not applicable. Mutagenic effects: Not applicable. Teratogenic effects: Not applicable.

12 . Ecological information

Environmental precautions	: No known significant effects or critical hazards.
Octanol/water partition coefficient	: The product is more soluble in octanol.
Bioconcentration factor	: Not available.
Products of degradation	: The final products of biodegradation are carbon oxides and water. Nitrogen and sulfur oxides and metal salts may also be produced in some cases.
Toxicity of the products of biodegradation	: The product itself and its products of degradation are not toxic.

13 . Disposal considerations

Waste disposal	: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
-----------------------	--

14 . Transport information

NAERG	: Not applicable.
Regulatory information	
UN/ IMDG/IATA DOT/TDG	: Not regulated by any transport mode.

15 . Regulatory information

United States

- HCS Classification** : Not regulated.
- U.S. Federal regulations** : TSCA 8(b) inventory: All components listed.
 SARA 302/304/311/312 extremely hazardous substances: No products were found.
 SARA 302/304 emergency planning and notification: No products were found.
 SARA 302/304/311/312 hazardous chemicals: No products were found.
 SARA 311/312 MSDS distribution - chemical inventory - hazard identification: No products were found.
 Clean Water Act (CWA) 307: No products were found.
 Clean Water Act (CWA) 311: No products were found.
 Clean Air Act (CAA) 112 accidental release prevention: No products were found.
 Clean Air Act (CAA) 112 regulated flammable substances: No products were found.
 Clean Air Act (CAA) 112 regulated toxic substances: No products were found.

- State regulations** : Pennsylvania RTK: N,N-Bis(2-Ethylhexy)-((1,2,4-Triazol-1-yl)Methyl)amine
 Massachusetts RTK: N,N-Bis(2-Ethylhexy)-((1,2,4-Triazol-1-yl)Methyl)amine
 New Jersey: N,N-Bis(2-Ethylhexy)-((1,2,4-Triazol-1-yl)Methyl)amine
 California prop. 65: No products were found.

Canada

- WHMIS (Canada)** : Not controlled under WHMIS (Canada).
 CEPA DSL: All components listed.

This product has been classified in accordance with the hazard criteria of the Canadian CPR, the United States OSHA, the Mexican NOM -018-STPS-2000 and the Brazilian NBR 14725:2001. This MSDS contains all the information required by the CPR, OSHA, the American National Standard Institute (ANSI) Z400.1, NOM -018-STPS-2000 and NBR 14725:2001.
