ANDEROL PRODUCT DATA SHEET

ANDEROL® 3150

SYNTHETIC COMPRESSOR OIL (ISO VG 150)

GENERAL INFORMATION

ANDEROL® 3150 is an ISO 150 compressor lubricant formulated from synthetic base fluid utilizing synthetic hydrocarbon (PAO) with specially developed additive systems.

ANDEROL 3150 is rated H2 for use in food processing plant applications.

TYPICAL PROPERTIES:

SALES SPECIFICATIONS					
PROPERTY	TEST METHOD	MIN	MAX	TYPICAL RESULTS

APPLICATIONS

- Cylinder and crankcase lubricant for reciprocating compressors and vacuum pumps.
- ANDEROL 3150 may also be considered for other applications requiring an oxidation resistant lubricant.

Nominal operating Range is -5°C to 205°C.

APPROVALS

ANDEROL synthetic lubricants are field tested, approved or recommended by most major compressor manufacturers. Should you have any questions regarding the suitability of ANDEROL 3150 compressor lubricant for a specific manufacturer's model compressor, please check with your ANDEROL lubricant supplier or contact ANDEROL Company.

ADVANTAGES

- Fewer oil changes
- Compatible with compressor seals, gaskets, hoses, and air system components
- · Reduced varnish lacquering and deposits
- · Greatly reduced fire and explosion hazard
- Reduced compressor maintenance
- Lower oil consumption

COMPATIBILITY

ANDEROL synthetic hydrocarbon based lubricants are similar to mineral oils in their compatibility with paints, seals, gaskets and hoses. No special precautions related to compatibility are required when changing over from a mineral oil lubricant to an ANDEROL synthetic hydrocarbon based lubricant.
