# SAFETY DATA SHEET

# PARAGON™ GOLD ISO 150, ISO 220, ISO 320, ISO 680, ISO 1000 &

ISO 1500

| Section 1. Identification                                  |  |  |  |  |
|--|--|--|--|--|
| GHS product identifier                                     | : Paragon <sup>™</sup> Gold ISO 150, ISO 220, ISO 320, ISO 680, ISO 1000 & ISO 1500  |  |  |  |
| Other means of identification                              | : Not available.   |  |  |  |
| Product type   | : Liquid.  |  |  |  |
| Identified uses  |  |  |  |  |
| Enclosed gear oil.   |  |  |  |  |
| Supplier's details   | : The Whitmore Manufacturing Company<br>930 Whitmore Drive, Rockwall, TX 75087<br>Tel.: 972-771-1000<br>Toll Free: 800-699-6318<br>Fax: 972-722-2108<br>Email: techservice@whitmores.com<br>Web: www.whitmores.com |  |  |  |
| Emergency telephone<br>number (with hours of<br>operation) | : CHEMTREC, U.S. : 1-800-424-9300 International: +1-703-527-3887<br>(24/7)   |  |  |  |

# Section 2. Hazards identification

| OSHA/HCS status                            | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|--|
| Classification of the substance or mixture | : Not classified.  |
| GHS label elements                         |  |
| Signal word                                | : No signal word.  |
| Hazard statements                          | : No known significant effects or critical hazards.  |
| Precautionary statements                   |  |
| General                                    | : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.  |
| Prevention                                 | : Not applicable.  |
| Response                                   | : Not applicable.  |
| Storage                                    | : Not applicable.  |
| Disposal                                   | : Not applicable.  |
| Hazards not otherwise<br>classified        | : None known.  |

### Section 3. Composition/information on ingredients

| Substance/mixture |  |  |  |
|-------------------|--|--|--|
| Other means of    |  |  |  |
| identification    |  |  |  |

: Mixture

: Not available.

### **CAS number/other identifiers**

| CAS number   | 1 | ١ |
|--------------|---|---|
| Product code | 1 | Ν |

Not applicable.

: Not available.

| Ingredient name     | %      | CAS number |
|---------------------|--------|------------|
| Butene, homopolymer | 5 - 10 | 9003-29-6  |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# Section 4. First aid measures

| Description of necessa | r <u>y first aid measures</u>  |
|------------------------|--|
| Eye contact            | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Get medical attention if irritation occurs.</li> </ul>   |
| Inhalation             | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention if symptoms occur.  |
| Skin contact           | : Flush contaminated skin with plenty of water. Continue to rinse for at least 20 minutes.<br>Get medical attention if irritation persists.  |
| Ingestion              | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. |

#### 

| Most important symptoms/effects, acute and delayed |   |  |  |  |  |  |
|--|---|--|--|--|--|--|
|  |   |  |  |  |  |  |
| :  | No known significant effects or critical hazards. |  |  |  |  |  |
| :  | No known significant effects or critical hazards. |  |  |  |  |  |
| :  | No known significant effects or critical hazards. |  |  |  |  |  |
| :  | No known significant effects or critical hazards. |  |  |  |  |  |
| Over-exposure signs/symptoms                       |   |  |  |  |  |  |
| :  | No known significant effects or critical hazards. |  |  |  |  |  |
| :  | No known significant effects or critical hazards. |  |  |  |  |  |
| :  | No known significant effects or critical hazards. |  |  |  |  |  |
|  | No known significant effects or critical hazards. |  |  |  |  |  |
|  |   |  |  |  |  |  |

#### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

### Section 4. First aid measures

**Specific treatments** 

: No specific treatment. **Protection of first-aiders** 

: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                             |   |
|---|---|
| Suitable extinguishing media                    | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                  | : None known.   |
| Specific hazards arising from the chemical      | : No specific fire or explosion hazard.   |
| Hazardous thermal decomposition products        | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide  |
| Special protective actions<br>for fire-fighters | : No special measures are required.   |
| Special protective equipment for fire-fighters  | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

### Section 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures |   |  |  |
|---|---|--|--|
| For non-emergency personnel   | : | No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.  |  |
| For emergency responders  | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |  |
| Environmental precautions   | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |  |
| Methods and materials for containment and cleaning up               |   |  |  |
| Small spill   | : | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |  |
| Large spill   | : | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |  |

# Section 7. Handling and storage

| Precautions for safe handling                                      | g |  |
|--|---|--|
| Protective measures  | 1 | Put on appropriate personal protective equipment (see Section 8).  |
| Advice on general occupational hygiene                             | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

# Section 8. Exposure controls/personal protection

#### **Control parameters**

**Occupational exposure limits** 

None.

| Appropriate engineering<br>controls | : Good general ventilation should be sufficient to control worker exposure to airborn contaminants.   | ne  |
|-------------------------------------|---|-----|
| Environmental exposure controls     | : Emissions from ventilation or work process equipment should be checked to ensutine they comply with the requirements of environmental protection legislation. | ure |

#### Individual protection measures

| Hygiene measures       | ating, smoking and using the lavatory ar oppropriate techniques should be used to                            | remove potentially contaminated clothing.<br>ng. Ensure that eyewash stations and safety  |
|------------------------|--|---|
| Eye/face protection    | essessment indicates this is necessary to<br>ases or dusts. If contact is possible, the                      | red standard should be used when a risk<br>avoid exposure to liquid splashes, mists,<br>following protection should be worn, unless<br>of protection: safety glasses with side- |
| Skin protection        |  |   |
| Hand protection        |  | mplying with an approved standard should be products if a risk assessment indicates this is   |
| Body protection        | ersonal protective equipment for the boo<br>erformed and the risks involved and sho<br>andling this product. | dy should be selected based on the task being<br>ould be approved by a specialist before  |
| Other skin protection  |  | skin protection measures should be selected<br>ne risks involved and should be approved by a  |
| Respiratory protection | andard if a risk assessment indicates th   | lied air respirator complying with an approved<br>is is necessary. Respirator selection must be<br>levels, the hazards of the product and the safe                              |

# Section 9. Physical and chemical properties

### Appearance

| Physical state                               | Liquid.  |  |
|--|--|--|
| Color  | Amber. [Dark]  |  |
| Odor   | Mild sulfur.   |  |
| Odor threshold                               | Not available.   |  |
| рН   | Not available.   |  |
| Melting point                                | Not available.   |  |
| Boiling point                                | Not available.   |  |
| Flash point                                  | Open cup: 204.44°C (400°F) [Cleveland.]  |  |
| Evaporation rate                             | Not available.   |  |
| Flammability (solid, gas)                    | Not available.   |  |
| Lower and upper explosive (flammable) limits | Not available.   |  |
| Vapor pressure                               | Not available.   |  |
| Vapor density                                | Not available.   |  |
| Relative density                             | 0.751  |  |
| Solubility                                   | Insoluble in the following materials: cold water and hot water.<br>Soluble in aliphatic & aromatic solvents. |  |
| Partition coefficient: n-<br>octanol/water   | Not available.   |  |
| Auto-ignition temperature                    | Not available.   |  |
| Decomposition temperature                    | Not available.   |  |
| Viscosity                                    | Not available.   |  |
| Volatility                                   | Not available.   |  |
|  |  |  |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : Reactive or incompatible with the following materials: oxidizing materials.                          |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

# Section 11. Toxicological information

### Information on toxicological effects

### Acute toxicity

There is no data available.

### Irritation/Corrosion

| Product/ingredient name   | Result                                       | Species         | Score | Exposure                       | Observation |
|---|--|-----------------|-------|--------------------------------|-------------|
| Poly(oxy-1,2-ethanediyl), α-[4-(1,1,3,3<br>-tetramethylbutyl)phenyl]-ω-hydroxy- | Eyes - Moderate irritant                     | Rabbit          | -     | 24 hours 10 µL                 | -           |
| 1,2-Benzisothiazol-3(2H)-one  | Skin - Mild irritant<br>Skin - Mild irritant | Rabbit<br>Human |       | 24 hours 500 µL<br>48 hours 5% | -           |

#### Sensitization

There is no data available.

#### **Carcinogenicity**

There is no data available.

#### Specific target organ toxicity (single exposure)

#### There is no data available.

#### Specific target organ toxicity (repeated exposure)

There is no data available.

#### Aspiration hazard

| Name                | Result                         |
|---------------------|--------------------------------|
| Butene, homopolymer | ASPIRATION HAZARD - Category 1 |

| Information on the likely<br>routes of exposure | : | Routes of entry anticipated: Oral, Dermal.        |
|---|---|---|
| Potential acute health effects                  |   |   |
| Eye contact                                     | : | No known significant effects or critical hazards. |
| Inhalation                                      | ÷ | No known significant effects or critical hazards. |
| Skin contact                                    | ÷ | No known significant effects or critical hazards. |
| Ingestion                                       | : | No known significant effects or critical hazards. |
|   |   |   |

| Symptoms related to the | physical, chemical and | toxicological characteristics |
|-------------------------|------------------------|-------------------------------|
|                         |                        | -                             |

| Eye contact  | : No known significant effects or critical hazards. |
|--------------|---|
| Inhalation   | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion    | : No known significant effects or critical hazards. |

#### Delayed and immediate effects and also chronic effects from short and long term exposure

| <u>Short term exposure</u>     |   |
|--------------------------------|---|
| Potential immediate<br>effects | : No known significant effects or critical hazards. |
| Potential delayed effects      | : No known significant effects or critical hazards. |
| <u>Long term exposure</u>      |   |
| Potential immediate effects    | : No known significant effects or critical hazards. |
| Potential delayed effects      | : No known significant effects or critical hazards. |

### Section 11. Toxicological information

| Potential chronic health ef  | <u>fects</u>  |
|------------------------------|---|
| General                      | : No known significant effects or critical hazards. |
| Carcinogenicity              | : No known significant effects or critical hazards. |
| Mutagenicity                 | : No known significant effects or critical hazards. |
| Teratogenicity               | : No known significant effects or critical hazards. |
| <b>Developmental effects</b> | : No known significant effects or critical hazards. |
| Fertility effects            | : No known significant effects or critical hazards. |

### Numerical measures of toxicity

Acute toxicity estimates

There is no data available.

# Section 12. Ecological information

#### **Toxicity**

There is no data available.

### Persistence and degradability

There is no data available.

### **Bioaccumulative potential**

| Product/ingredient name | LogPow     | BCF         | Potential |
|-------------------------|------------|-------------|-----------|
| Butene, homopolymer     | 7.6 to 7.8 | 314 to 1882 | high      |

### Mobility in soil

Soil/water partition coefficient (Koc) : Not available.

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

# Section 14. Transport information

|                               | DOT Classification | IMDG           | IATA           |
|-------------------------------|--------------------|----------------|----------------|
| UN number                     | Not regulated.     | Not regulated. | Not regulated. |
| UN proper<br>shipping name    | -                  | -              | -              |
| Transport<br>hazard class(es) | -                  | -              | -              |
| Packing group                 | -                  | -              | -              |
| Environmental<br>hazards      | No.                | No.            | No.            |
| Additional information        | -                  | -              | -              |

**AERG** : Not applicable.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to Annex II of MARPOL 73/78 and the IBC Code

# Section 15. Regulatory information

| U.S. Federal regulations  | : | TSCA 4(a) proposed test rules: Dibutyl phosphonate  |
|---|---|---|
|   |   | <b>TSCA 4(a) final test rules</b> : 4-Methylpentan-2-one; 2-Butenedioic acid (E)-, di-C8-18-alkyl esters                                |
|   |   | TSCA 8(a) PAIR: Naphthalene; 2-Butenedioic acid (E)-, di-C8-18-alkyl esters   |
